TYPE COLLECTION

Typographic universes

This TYPE Collection is where it all started. With a mission to make design that speaks to the heart and create decorative art prints that can serve as both inspiration, motivation and as the perfect gift for someone you love.

All our statements originate in a personal story and bring messages we are enthusiastic about sharing with the world. They are reminders of all that we want to achieve and believe in – to believe yourself and be happy for who you are. That is what I LOVE MY TYPE means.

This TYPE Collection covers a wide range of typographic universes, each with its own visual identity. Every universe forms the basis for lovely series of decorative art prints – all printed in Denmark on 100% recycled luxury paper.

Welcome to our creative world, I hope you like our TYPE Collection.

All the best, Kathrine

We love the process – it makes the journey more fun

I LOVE MY TYPE was founded in autumn 2013 in Copenhagen, Denmark by graphic designer Kathrine Højris.

I LOVE MY TYPE is a visual universe where designer Kathrine Højris does what she loves most: creating what speaks to the eye and heart. The beautifully designed posters, notebooks, cards and other creative products follow one mission: to speak to people on a personal level. With topics like self-worth, relationships, friendships and family, I LOVE MY TYPE offers something for everyone who appreciates cool design with a meaning behind it.

The design products are sold all over the world – from small design boutiques to big department stores. The range of products includes a large collection of decorative art prints, frames, cards, gifts, journals and notebooks.

All art prints are made in Denmark of 100% recycled luxury paper and cover three categories:

- ART – abstract and illustrative prints
- TYPE – prints with text
- KIDS – prints for the kids' room
